## ENGINEERING EXPERIENCE

**Web Development Immersive at General Assembly**
New York, NY – Feb 2018 - May 2018

- Built fluency in full-stack web development through completing an intensive three-month program focused on common best practices in object-oriented programming, MVC frameworks, data modeling, and test-driven development
- Appointed as project manager in a team of developers to build a flashcard-style study app from concept to deployment using React, Express, Node, and Postgres
- Created a JavaScript ES6 implementation of the strategy game *Mastermind* with difficulty levels and *a11y* accessibility compliance
- Drew from my experience to build an app for managers to plan hours for their teams on a per-project basis using vanilla JS, Express, EJS, and Postgres
